Apps and Tools:	GitHub, Slack, Visual Studio Code, Sublime Text, WebStorm, Eclipse, Xcode, AWS, Apache
Concepts:	Agile, Waterfall

Projects

Polifactual	https://github.com/brienmizell/Polifactual	Jan 2019
<ul style="list-style-type: none">Polifactual is a web application that informs users on their local, state, and national legislative representatives.Uses Node.js, Express.js and PostgreSQL on the backend.Uses React, HTML5 and Bootstrap on the Frontend.		
dragonStack	https://github.com/brienmizell/dragonStack	Dec 2018
<ul style="list-style-type: none">dragonStack is a multi-account collector's application for gathering dragons.Uses Node.js, Express.js, and PostgreSQL on the backend to create a server, API, and manage the database.For the frontend, dragonStack uses HTML, CSS, various JavaScript modules, React.js and Redux.		
Streamster	https://github.com/brienmizell/streamster	Jun 2019
<ul style="list-style-type: none">Streamster is a live streaming app which allows user(s) to stream to different channels. Users can view streams, create a new stream, single sign-on using Google OAuth. Edit/Delete streams they created, and see a list of all the streams available.Implemented an RTMP server, utilized OBS streaming tool, and constructed navigation between several pages. I even built a local database.Built with HTML, CSS, JavaScript, Google OAuth, React, Redux, RTMP server, OBS streaming tools.		
MusicMaster	https://github.com/brienmizell/music-master	Mar 2019
<ul style="list-style-type: none">The Music Master project search for any artist the user enters in to fetch the artist's info (picture, number of followers, and top tracks). Once the user clicks the song, it will begin to play a 30-second snippet of the song chosen.Built with HTML, CSS, JavaScript, React, React Bootstrap, and Spotify API.		

EDUCATION

DigitalCrafts Atlanta, GA	2018 – 2019
Certification in Full Stack Software Engineering	
<ul style="list-style-type: none">Software engineering training course covering full-stack development including, but not limited to JavaScript, Python, including an emphasis on cutting-edge frameworks like React/Redux and server-side technologies including Node.js, Express, and PostgreSQL.	
San Diego City College San Diego, CA	2010 – 2011
Business Administration	
Georgia Perimeter College Atlanta, GA	2008 – 2009
Business Administration
